Gertrude

10578 S Volcano Lane

You Decide the State

Dear Gertrude,

Let me begin by thanking you for your letter and for the helpful information about the volcano in your area. The information that you provided was helpful and my group has come to a consensus about the type of volcano that you live next to.

Our groups started researching the three types of volcanoes and found that you do not live next to a _____ volcano due to the following facts. (Facts that disprove this type of volcano will be typed here).

We also decided that you do not live next to a _____ volcano as it does not meet the following criteria. (Facts that disprove this type of volcano will be typed here).

Gertrude, we believe that you live next to this type of volcano for the following reasons. (Facts that prove she lives next to this type of volcano will be typed here).

We would like to add that we think you should have a family evacuation plan due to the following reasons. (Reasoning on whether you think Gertrude and her family need an emergency plan and if you think she is safe etc. will be typed here).

Lastly, we would like to take this opportunity to thank you for your letter and for your help on our research about volcanoes. We learned a lot of great information about cinder cones, shielded, and composite volcanoes.

We hope to chat soon.

Respectfully yours,

SN MS Students (Your names)
